Student	You were this student's:	Statement
Kylie Cameron	Unit Assessor/Lecturer, 2016-2019	George has always offered a learning experience that really does focus 100% on the student. I study Information Technology online and have found learning distance to be a real challenge. With George, I always know I have his support 24/7. He has always offered additional learning tools on top of what the unit already offers and he makes himself available whenever I am confused or do not understand what is expected of me. He would never brush me off and just refer me back to the text book, he would take the time to find out what I'm actually stuck on and offer an alternative way for me to understand what is being taught. I have had George for multiple units during the course of my degree and he offers the same support no matter what the subject. I'm very grateful to have George as my teacher and mentor during my university journey.
